Professional Summary

Engineering Manager with 10+ years of software engineering experience, currently leading 13 engineers across trading and post-trade risk platforms, including a platform handling 75M+ orders/day at <50ms P99. Track record of scaling distributed systems, reducing costs, leading cross-functional transformations, and developing engineering teams.

Experience

Angel One Bangalore, India
Engineering Manager April 2024 – Present

- Lead **13 engineers across multiple teams and charters** (backend and QA, through tech leads) for business-critical financial systems.
- Scaled a low-latency risk and order management platform to **75M+ orders/day**, handling 4K writes/sec and 50K reads/sec at <50ms P99.
- Stabilized the post-trade risk platform recovering **\$3M+/day in shortfalls**, clearing the inherited backlog and restoring predictable delivery.
- Defined the roadmap and led a multi-quarter modernization of a reporting platform across **4 engineering teams, Product, Operations, and Analytics**, delivering milestones on schedule.
- Cut **infrastructure and licensing costs by 40%** through infrastructure rightsizing, platform rationalization, and service consolidation.
- Cut **code-change lead time by 70% and review time by 50%** by reducing average PR size by 72% and driving adoption of **Claude and GitHub Copilot** for development and code review.
- Established platform SLAs and reliability standards and improved availability to **99.9%**; leading a cross-team initiative toward **99.99%**.
- Coached **5 engineers to promotion across two performance cycles**.

Angel One Bangalore, India
Senior Software Engineer December 2022 – April 2024

- Led a **7-engineer team** building an in-house order management platform supporting **11M+ orders/day at <50ms P99**.
- Reduced **daily operational overhead by ~40%** by designing a self-serve rule engine for compliance and margin-risk controls.
- Improved **platform performance by 20%** by building a performance testing framework and eliminating system bottlenecks.
- Increased **test coverage from 15% to 90%+** by establishing Go standards, quality gates, and engineering best practices.
- Designed **multi-DC high-availability and disaster-recovery architecture** with automated DR playbooks.

Gojek Bangalore, India
Senior Software Engineer September 2021 – November 2022

- Led a **6-engineer team** building a centralized, 8-stage identity-verification platform integrating ML-based deepfake and spoof detection and processing **100 document sets/sec**.
- Owned end-to-end architecture and technical planning across **security, data, and platform teams**, covering scalability, reliability, and observability.

Postman Bangalore, India
Software Engineer 2 August 2020 – September 2021

- Built a self-serve change management platform for version-controlled workflows; improved a core product workflow by 70% and reduced error rates by 80%.

PaisaBazaar*Gurgaon, India*Senior Software Developer

December 2018 – August 2020

- Led the architecture and revamp of a mutual funds platform processing millions of dollars in daily transactions.
- Automated operational workflows, reducing daily manual effort by 30% and contributing to a 66% reduction in customer complaints.

Blocknomic Technologies Ltd*Gurgaon, India*Senior Software Developer

January 2018 – December 2018

- Led **3 engineers** building a cryptocurrency exchange aggregator with real-time public blockchain integrations.

Seraro Solutions Ltd*Noida, India*Software Engineer

July 2016 – December 2017

- Developed an event-driven IoT tracking platform using serverless architecture and AWS services.

Technical Skills

Programming Languages: Java, Go, Python, Javascript**Tools and Frameworks:** Docker, Kubernetes, Kafka, Node.js, Spring Boot, RabbitMQ, AWS, Redis, gRPC, REST APIs, Prometheus, Grafana**AI Tools:** Cursor, Claude Code, ChatGPT**Databases:** PostgreSQL, MySQL, MongoDB, AWS DynamoDB, SQL Server**Education**

Guru Gobind Singh Indraprastha University*August 2012 – June 2016*

Bachelors of Technology - Computer Science and Engineering

Delhi, India
